INTRODUCTION

NOTES ON PUBLIC LIBRARY INFORMATION: The information in this publication on public libraries was compiled from reports submitted by the libraries to the Division for Library Services for calendar year 1972. The report forms used were Wisconsin Public Library Annual Report 1972 and U.S. Office of Education, Library General Information Survey - LIBGIS 1972/73.

Population Served

Population Served - the population in a governmental unit which is eligible to be served by a library because the governmental unit supports the library by appropriation or by contracting for services. Population Served does not include the population of governmental units to which free service is extended. In cases where a governmental unit contracts with more than one library for services, the population of the contracting governmental unit is divided up evenly among the libraries serving the governmental unit. Population figures used are 1972 population estimates from the Wisconsin Department of Administration.

Library Collection

Periodical - current periodicals by number of titles subscribed to by the library.

Slides, Filmstrips - slides were counted by physical item; filmstrips were counted by title.

Discs, Tapes - counted by physical item.

Capital Outlay - expenditures for vehicles, building sites, new buildings, additions to buildings, major structural changes, architect's fees, building permits, furnishings, equipment and initial bookstock for new or expanded quarters, and additional furnishings and equipment for existing buildings.

Grants - income from the Library Services and Construction Act and income from any other federal grants except construction grants.

Contract Income - income from contracts (written or oral) for the extension of services to the state, cities, villages, counties, school districts and/or other libraries or agencies. Any income which is given to the municipality is not included.

Endowment and Gifts - income from the interest received from trusts and endowments, plus cash gifts received.

Other Income - operating income from all other sources.

NOTES ON ACADEMIC AND SPECIAL LIBRARY INFORMATION: The information in this publication on academic libraries was compiled from reports submitted by the libraries to the Division for Library Services for 1972/73. The report forms used were Library General Information Survey - LIBGIS 1972/73, and a supplementary form which was designed by the Division.

The information in this publication on special libraries was compiled from reports submitted by the libraries to the Division for Library Services. The information covers the last completed reporting year for the libraries, whether the reporting year was calendar year or fiscal year. Book stock may be cataloged by the Library of Congress, Dewey Decimal, or any other classification scheme adopted by your library. Collections of government documents, pamphlets, paperback books, technical reports, etc. that are not cataloged in the same manner as book stock should not be reported as book stock even though these materials are indexed by standard indexes or catalogs.

Periodical Titles - the number of titles excluding duplicates, currently received for the periodicals collections.

Periodicals Collection(s) - a library's collection(s) of magazines, newspapers, and of other serial publications that are processed in the same manner as magazines and newspapers, and located in the periodicals section(s) of the library.
